Airport consulting & project management

COMPLEXITY MADE EASY

ABOUT

LOGO InfraConsult is a specialized consulting and project management company with a proven track record in managing complex building-, operations- and infrastructure projects, with a particular focus on the airport industry.

What sets us apart is our understanding of the importance of clear and full requirements definition for quality control throughout all project phases. In close collaboration with our clients, we develop customized solutions tailored to their specific needs, placing our client's requirements at the core of our work.

With deep project management and organizational expertise, we ensure a smooth implementation of solutions, delivering results that elevate business success.

Services in airport consulting include:

- ✈ Requirements management
- ✈ Capacity analysis
- ✈ Process analysis and optimization
- ✈ Construction project management
- ✈ Commissioning and ORAT support
- ✈ Safety assessments, airport certification and compliance

OUR EXPERTS

understand the complexity and challenges of airport operations, working closely with our clients to deliver tailored solutions that meet their needs.

We provide exceptional service and support, working with you every step of the way.

OUR SERVICES

LOGO InfraConsult is dedicated to helping airport operators, Apron Management Service Providers and Ground Services Providers achieve success by providing comprehensive services that meet their unique needs.

Services:

REQUIREMENTS MANAGEMENT

We define and manage requirements in a structured and methodical way, ensuring that our clients' needs are met and goals are achieved using state-of-the-art requirements management software.

CAPACITY ANALYSIS

We analyze existing capacities for all airport areas and identify bottlenecks to define future infrastructure requirements, helping to develop solutions that meet the demands of both passengers and airlines.

PROCESS ANALYSIS AND OPTIMIZATION

Through customized process analysis and optimization services, using state-of-the-art tools and methods to safeguard safety and compliance, improve efficiency, reduce costs, and enhance the overall airport experience.

CONSTRUCTION PROJECT MANAGEMENT

Our team has extensive experience coordinating a variety of airport construction projects at various airports in Germany. We ensure that projects are delivered on time and within budget, while maintaining regulatory compliance, operational stability and safety standards.

COMMISSIONING AND ORAT SUPPORT

After completion of construction- or refurbishment projects, we support our clients in the commissioning of new infrastructure or facilities, including defining operational concepts, training and guaranteeing seamless integration with existing infrastructure and operations.

SAFETY ASSESSMENTS, AIRPORT CERTIFICATION AND COMPLIANCE

We offer strategic and operational guidance to airports on risk management, safety assessments, certification and compliance processes, ensuring they meet regulatory standards.
